Why: Celebrating 30 years of investing in the next generation of scientific breakthroughs in patient-centric research.

Gateway's vision is to shape a world in which a cancer diagnosis is no longer feared. Our mission is to fund meaningful and breakthrough clinical trials worldwide that help people living with cancer feel better and live longer, as we work to end cancer as we know it. We are dedicated to investing in next generation breakthroughs in patient-centric cancer treatments and cures.

Gateway is unique:

- We've funded over 190 innovative cancer clinical trials.
- It's important to us that patients have a voice.
- Helping cancer patients feel better and live longer is a top priority.
- Funding and trial selection is both targeted and precise.
- 99 cents of every dollar we receive goes directly toward under-funded Phase I and Phase II cancer clinical trials. **Early phase trials have been shown to have the greatest patient impact in conquering cancer.**
