### WHO WE ARE

Cancer Treatment Centers of America is a Comprehensive Cancer Care Network that serves adult patients with cancer.

CTCA® offers surgery, radiation, chemotherapy, interventional oncology, genomic testing, precision cancer treatment and immunotherapy. At the same time, we support patients' overall wellbeing with therapies designed to enhance their quality of life while managing side effects during and after treatment.

Our Suburban Chicago hospital was the first medical center in the CTCA network, which now includes locations in Atlanta, Philadelphia, Phoenix and Tulsa.

Our multidisciplinary teams are organized by assembly of skilled clinicians across the enterprise who spearhead expansion and enhancement of specialized, disease-specific cancer care. These experts work together using evidence-based pathways to deliver quality care and stay abreast of clinical innovations.

### Our pledge

## TO REFERRING PHYSICIANS

We will:

- Provide an easy and efficient process for your patient referrals
- Maintain a dedicated referral phone number: 847.746.9990
- Treat your patient with the highest degree of respect and care
- Ensure an efficient and timely insurance verification process
- Promptly schedule your patient's appointment
- Provide you with helpful access to the physician treating your patient
- Swiftly respond to your requests for patient status updates
- Collaborate with you to appropriately and deliberately transition patients back to your care

# Our clinical **SERVICES**

---

Your patients will receive evidence-based care by highly skilled clinicians who have extensive experience in the management of early, advanced stage and complex adult cancers.

We treat all major and rare cancers with great attention to optimizing patients' quality of life utilizing multiple clinical resources, treatments and technology.

## **SURGICAL ONCOLOGY**

- Breast surgery
- Colorectal surgery
- Endocrine surgery
- Hepatobiliary and pancreatic surgery
- Skin and soft tissue surgery
- Upper gastrointestinal surgery

## **SPECIALTY SURGERY**

- Gynecologic oncology surgery
- Thoracic surgery
- Urologic surgery
- Neurosurgery
- Head and neck surgery
- Microsurgery
- Plastic and reconstructive surgery

## **ADVANCED SURGICAL CAPABILITIES**

- Robotic-assisted, minimally invasive and laparoscopic surgery
- Cytoreductive surgery with intraperitoneal chemotherapy (HIPEC)
- Lymphedema management
  - Vascularized lymph node transfer surgery
  - Lymphaticovenular bypass surgery

## **RADIATION ONCOLOGY**

- Brachytherapy
- Intraoperative radiation therapy (IORT)
- Standard external beam radiation
- Stereotactic radiosurgery (SRS) and fractionated SRT

## **MEDICAL ONCOLOGY**

- Bone marrow/stem cell transplant program
- Immunotherapy
- Systemic and oral chemotherapy
- Endocrine therapy
- Hormone therapy

## **PRECISION MEDICINE**

- Comprehensive genomic profiling
- Genomic-based targeted therapies and immunotherapies
- Solid tumor and liquid biopsy
- Molecular tumor boards
- Genetic testing and counseling
- Medication acquisition program

## **CLINICAL TRIALS AND RESEARCH**

- Phase 1b/phase II trials
- Molecularly-based (precision medicine) trials
- Immunotherapy-based trials
- Multi-modality trials
- Cooperative group trials
- Quality of life trials

## **INTERVENTIONAL ONCOLOGY**

- Interventional radiology
- Interventional gastroenterology
- Interventional pulmonology
- Interventional pain management

## **PATHOLOGY AND LAB SERVICES**

- Tissue biorepository services
